

# GET MORE OUT OF YOUR COMMODORE COMPUTER

## AND FOR EVEN MORE INFORMATION DIAL UP OUR PAPERLESS USER MAGAZINE

The magazine of the future is here. To supplement and enhance your subscription to POWER/PLAY and COMMODORE magazines, the COMMODORE INFORMATION NETWORK — our "paperless magazine" — is available now over the telephone using your Commodore computer and modem.

Join our computer club, get help with a computing problem, "talk" to other Commodore friends, or get up-to-the-minute information on new products, software and educational resources. Soon you will even be able to save yourself the trouble of typing in the program listings you find in POWER/PLAY or COMMODORE by downloading direct from the Information Network (a new user service planned for early 1983.) The best part is that most of the answers are there before you even ask the questions. (How's that for service?)

To call our electronic magazine you need only a modem and a subscription to CompuServe, one of the nation's largest telecommunications networks. (To make it easy for you Commodore includes a free subscription to CompuServe in each VICMODEM package.)

For more information, visit your Commodore dealer or contact CompuServe customer service at 800-848-8990 (in Ohio, 614-457-8600).

**commodore**  
**power/play**  
home computing

**The Home Computer Magazine POWER/PLAY** focuses on the lighter side of home computing. Regular features cover computer games and entertainment, local user groups, software reviews, programming techniques for beginners, home applications, telecomputing, and new products. Each issue provides a wealth of software that you can type into your Commodore computer. POWER/PLAY is your personal connection to other Commodore users, software and hardware developers, and Commodore itself. Published 4 times a year.

**commodore**  
**microcomputer**  
magazine

**The Microcomputer Magazine COMMODORE Magazine** is the in-depth information source for Commodore computerists. The focus is on applications, including business, education, computer music and art, and communications. COMMODORE magazine also provides a heavy measure of technical information and programming techniques for all levels of expertise, including departments for each computer we make. Reviews of books, software, and hardware round out each issue, as well as many programs that can be typed in and used on Commodore computers. Published 6 times a year.
